This free online course will help you to design assessment instruments to measure student outcomes. It focusses on rubrics and surveys. Each week will explore a different aspect of assessment, and mix theory and practice. You will build your own assessments, and share and test them with other learners.

How To Design Assessments That  
Promote The Learning Process  
Assessments are critical elements of  
instruction; they determine  
accomplishment of lesson objectives.  
However, you can design assessments  
to be more than an evaluation of what  
has been learned. You can design them

Download File PDF Designing  
And Assessing Courses And  
Curricula A Practical Guide 3rd  
Edition  
to be a part of the learning process  
itself.

Developing Learning Outcomes.

Learning outcomes are user-friendly statements that tell students what they will be able to do at the end of a period of time. They are measurable and quite often observable. Learning outcomes are usually discussed within the context of program-wide assessment, but they can be valuable components of any class
