As helping professionals, we have learned that helpers need help, encouragement, and support, too. This article was written to affirm that, for helping professionals, proper self-care is both a responsibility and a necessity. Being successful in the human services field requires a strong, committed individual.

A Practical Guide to Self-Care for Helping Professionals

Within the Helping Professions I include the following: Social Workers, Housing Officers, Police Officers, Teachers, Noise Team officers and any agency officers that may be drawn into disputes between members of the public through their role. Sometimes a dispute can start to involve the Helping Professional and their organisation directly.

More specifically, it seems that many helping professionals are involved in personal and romantic relationships in which they are caretakers or codependents to a narcissistic partner. It is the presumption of this author that when we professional helpers were children, we learned to cope with our narcissistic parent by developing a pleasing, helpful and accommodating persona.
